TITLE : CENTRAL NERVE-ACTING MEDICINE

ABSTRACT : PURPOSE: To provide the subject acting medicine containing the leaf of ginkyo or its extract as an active ingredient and exhibiting an anesthetic action- controlling effect, i.e., an anesthetic action-inhibiting or enhancing effect, by its administration before a patient is anesthetized.

CONSTITUTION: The objective central nerve-acting medicine contains the leaf of ginkyo, an extract obtained by extracting the leaf of the ginkyo with water or an organic solvent, or its further dried product (bilobalide or a composition containing the bilobalide) as an active ingredient. The medicine is preferably administered at a dose of 10-500mg/kg just before an anesthetic agent is administered.
